## SUMMARY

---

I'm a passionate MERN Stack Developer with real-world experience building and scaling web applications. I've had the opportunity to work with a few great teams, where I combined a practical mindset with creativity to solve problems, improve performance, and deliver solutions that truly support business goals. I love turning ideas into functional, user-friendly experiences.

## PROFESSIONAL EXPERIENCE

---

**Soft Standard Solutions - MERN Stack Developer** Dec 2024 - Present  
New Jersey, US (Remote)

- Rebuilt the frontend of 'Oppora' with a focus on performance and code optimization, resulting in a significantly faster and more maintainable application.
- Optimized the codebase of 'Bix3' and improved most API responses by 40%–60% through efficient refactoring and performance tuning.
- Implemented lazy loading, code splitting, background jobs, and cron jobs, along with caching strategies to enhance user experience and reduce load times across multiple projects

**Solutya Pvt Ltd - Software Developer Intern ( MERN )** Sep 2024- Dec 2024  
Dhaka, Bangladesh

- Contributed to full-stack development using the MERN stack, implementing RESTful APIs and dynamic user interfaces for client projects.
- Assisted in debugging, optimizing database queries, and improving application performance to ensure smooth deployment and scalability.

**Nurlt - Frontend Developer Intern ( React / NextJs )** Feb 2024- Sep 2024  
Dhaka, Bangladesh

- Developed responsive and scalable frontend features based on client requirements using React and Next.js.
- Collaborated closely with backend developers and UI/UX designers to ensure seamless integration and user-friendly interfaces.

## SKILLS

---

MongoDB, Express.js  
React.js, Node.js

PHP, MySQL  
Next.js

Git & Github  
Linux

## EDUCATION

---

**BSC in Computer Science and Engineering** Jan 2025 - Present  
Sonargaon University

**Higher Secondary School Certificate (A-Level, Science) – GPA: 5.00/5.00** Mar 2022 - Dec 2023  
Nawab Habibullah Model School & College
